Pleurotus ostreatus	x																															
Galerina autumnalais			x																													
Coprinus micaceus				x																												
Psathyrella hydrophila complex				x																												
Agrocybe dura						x																										
Polyporus squamosus						x																										
Stropharia rugosoannulata						x																										
Auricularia auricula							x																									
Phellinus (rimosus) robineae							x																									
Phyllotopsis nidulans								x																								
Pluteus cervinus								x																								
Agaricus bitorquis									x																							
Conocybe lactea										x																						
Coprinus plicatilis										x																						
Coprinus quadrifidus										x																						
Panaeolina foenisecii										x																						
Psathyrella candolleana										x																						
Tubaria furfuracea										x																						
Amanita flavorubescens													x																			
Amanita rubescens													x																			
Amanita vaginata													x																			
Boletus campestris													x																			
Boletus chrysenteron													x																			
Boletus subvelutipes													x																			
Collybia luxurians													x																			
Crucibulum laaeve													x																			
Cyathus stercoreus													x																			
Cyathus striatus													x																			
Ganoderma applanatum													x																			
Gyroporus castaneus													x																			
Hydnochaete olivaceum													x																			
Hypomyces hyalinus													x																			
Inocybe albodisca													x																			
Inocybe caesariata													x																			
Inocybe fastigiata													x																			
Inonotus dryadeus													x																			
Laccaria laccata													x																			
Laccaria striatula													x																			
Laccaria tortilis													x																			
Lactarius oculatus complex													x																			
Laetiporus cincinnatis													x																			
Marasmius oreades													x																			
Marasmius scorodonius													x																			
Phallus rubicundus													x																			
Phellinus gilvus													x																			
Pluteus nanus complex													x																			
Poronidulus conchifer													x																			
Psathyrella conopilea													x																			
Rickenella fibula													x																			
Russula aeruginea													x																			
Russula crustosa													x																			
Russula mariae													x																			
Russula pectinatoides													x																			
Russula silvicola complex													x																			
Scleroderma citrinum													x																			
Stereum complicatum													x																			
Stereum hirsutum													x																			
Stereum ostrea													x																			
Trametes versicolor													x																			
Trichaptum biforme													x																			
Xylaria hypoxylon													x																			
Xylaria polymorpha													x

Hypomyces chrysospermus														x																		
Inocybe abundans														x																		
Inocybe rimosoides														x																		
Lepiota americana														x																		
Mycena corticola														x																		
Russula albonigra														x																		
Russula cyanoxantha														x																		
Russula foetentula														x																		
Russula ochroleucoides														x																		
Russula variata														x																		
Boletus pulverulentus complex															x																	
Russula fragrantissima															x																	
Conocbe tenera																x																
Fomitopsis spraguei																x																
Leucocoprinus cepaestipes																x																
Lycoperdon coloratum																x																
Calvatia rubroflava																x																
Scleroderma bovista																	x															
Daldinia concentrica																		x														
Ganoderma lucidum																		x														
Tremella mesenterica																		x														
Bolbitius vitellinus																					x											
Agaricus comptulus																						x										
Agaricus placomyces complex																						x										
Agaricus pocillator																						x										
Laetiporus sulphureus																						x										
Lepiota naucina																						x										
Naematoloma fasciculare																						x										
Schizophyllum commune																						x										
Stereum rameale																						x										
Climacodon septentrionale																							x									
Amanita gemmata complex																								x								
Armillaria tabescens																								x								
Phallus ravenelii																								x								
Gymnopilus spectabilis																									x							
Pholiota squarrosoides																									x							
Daedaleopsis confragosa																										x						
Grifola frondosa																										x						
Daedalea quercina																														x		
Galerina autumnalis																												x				
Naematoloma aurantiacum																												x				
Merulius tremellosus																														x		
Laetiporus sulphureus																															x	
Phellinus igniarius																												x			x	
Bjerkandera adusta																																x
Nectria cinnabarina																																x
Hypochnicium bombycinum																																x
Irpex lacteus																																x
Lenzites betulina																																x
Flammulina velutipes																																x
NOTE: Only some gilled mushrooms, boletes, puffballs, and some fleshy polypores are included here.																																
Many other fungi, plus slime molds, are not included in this list even though they were seen in Central Park in 2006.																																
Ease of identification is a prime consideration.																																
The mushrooms above can be identified using any of a number of commonly available field guides or readily available websites.																																
This list is arranged chronologically by month and week.
