

162+ MUSHROOMS OF CENTRAL PARK / Lincoff 2005*

[For descriptions, see Audubon Guide, except where noted -- still in progress]

Ascomycetes: 14	Parchment & crust fungi: 11	Gilled Mushrooms (white): 41	Gasteromycetes: 13
Jelly Fungi: 2	Polypores: 27	Gilled Mushrooms (dark): 35	Myxomycetes: 7
Chanterelles, coral, tooth: 5	Boletes: 8		

ASCOMYCETES

Discomycetes (Cup Fungi)

Ascocoryne cylichnium (see A. sarcoides)
 Bisporella citrina
 Morchella esculenta
 Pachyella clypeata
 Peziza badio-confusa
 Scutellinia scutellata

Pyrenomycetes (Flask Fungi)

Daldinia concentrica
 Hypomyces aurantius
 Hypomyces chrysospermus
 Hypomyces hyalinus
 Hypoxylon rubiginosum (BB)*
 Nectria cinnabarina
 Xylaria polymorpha

Pleosporales ????

Apiosporina morbosa

BASIDIOMYCETES

JELLY FUNGI

Auricularia auricula
 Tremella mesenterica

CHANTERELLES, CORAL & TOOTH FUNGI

Cantharellus lateritius

Climacodon septentrionale

Clavulina cristata
 Hericium erinaceum
 Sparassis crispa (spathulata)
 Steccherinum ochraceum

PARCHMENT & CRUST FUNGI

Aleurodiscus oakesii ?
 Merulius tremellosus
 Stereum complicatum
 Stereum hirsutum
 Stereum striatum (BB)
 Stereum sericeum (=? St. striatum?)
 Hydnochaete olivaceum
 Hymenochaete sp.
 Laeticorticium bombycinum
 Laeticorticium roseum
 Laxitextum bicolor (BB)
 Perenniporia medulla-panis
 Tulasnella cf. violea (?)

POLYPORES

Bondarzewia berkeleyi
 Daedalea quercina
 Daedaleopsis confragosa
 Favolus alveolaris
 Fistulina hepatica
 Ganoderma applanatum (BB)
 Ganoderma lucidum
 Grifola frondosa

Inonotus obliquus (BB)

Irpex lacteus
 Laetiporus sulphureus
 Meripilus giganteus (sumstinei)
 Oligoporus caesius (BB)
 Oxyporus populinus
 Phellinus gilvus
 Phellinus rimosus (robiniae)
 Phellinus pomaceus
 Polyporus elegans
 Polyporus squamosus
 Poronidulus conchifer
 Pycnoporus cinnabarinus (BB)
 Trametes elegans (BB)
 Trametes hirsutum
 Trametes pubescens
 Trametes versicolor
 Trichaptum bifforme
 Tyromyces chioneus

BOLETES

Boletinellus merulioides
 Boletus campestris
 Boletus chrysenteron
 Boletus subvelutipes
 Gyroporus castaneus
 Strobilomyces floccopus
 Tylopilus badiceps
 Tylopilus plumbeoviolaceus

* BB=Recorded during BioBlitz in July, 2003.

GILLED MUSHROOMS (White spored)

Amanitaceae

Amanita flavoconia
Amanita flavorubescens
Amanita gemmata
Amanita muscaria (BB)
Amanita rubescens
Amantia vaginata complex

Agaricaceae

Lepiota cepaestipes
Lepiota naucina
Lactarius spp.

Russulaceae

Russula aeruginea
Russula albonigra
Russula emetica complex
Russula foetens complex
Russula mariae
Russula vinacea (BB)
Russula spp. (BB)

Tricholomataceae

Armillaria mellea
Armillaria tabescens
Clitocybe nuda
Clitocybe odora
Collybia acervata
Collybia sp.
Flammulina velutipes
Hohenbuehelia geogenia
Hypsizygus tessulatus
Laccaria laccata
Lentinellus ursinus
Lyophyllum decastes
Marasmius oreades
Marasmius rotula (BB)
Marasmius sp. (BB)
Melanoleuca sp.

Mycena cf. galericulata
Omphalotus olearius
Oudemansiella radicata
Panellus stipticus
Panus rudis
Phyllotopsis nidulans
Pleurotus ostreatus
Rickenella fibula

Schizophyllaceae

Schizophyllum commune (BB)

GILLED MUSHROOMS (Dark spored)

Agaricaceae

Agaricus bitorquis
Agaricus campestris
Agaricus sp. near placomyces
Agrocybe acericola
Agrocybe pediades
Agrocybe praecox

Coprinaceae

Conocybe lactea
Conocybe sp.
Coprinus atramentarius
Coprinus comatus
Coprinus disseminatus
Coprinus micaceus
Coprinus sp. near niveus
Coprinus quadrifidus
Coprinus plicatilis
Coprinus sp. (BB)
Panaeolina foenicisii
Psathyrella candolleana
Psathyrella hydrophila
Psathyrella velutina

Cortinariaceae & Crepidotaceae

Crepidotus mollis (BB)
Galerina autumnalis
Gymnopilus spectabilis

Inocybe lacera
Inocybe spp.
Inocybe sp. (BB)
Tubaria sp.

Entolomataceae & Pluteaceae

Entoloma spp.
Pluteus cervinus
Pluteus sp. (BB)
Volvariella bombycina

Strophariaceae

Naematoloma aurantiacum
Naematoloma fasciculare
Pholiota aurivella
Stropharia rugosoannulata

GASTEROMYCETES

Calvatia cyathiformis
Calvatia gigantea
Lycoperdon perlatum
Lycoperdon pyriforme
Geastrum saccatum
Scleroderma citrinum
Scleroderma lycoperdoides
Crucibulum leve
Cyathus striatus
Mutinus elegans
Phallus ravenellii
Phallus rubicundus (BB)
Pseudocolus schellenbergiae

MYXOMYCETES

Arcyria denudata (BB)
Ceratiomyxa fruticulosa (BB)
Dictydium cancellatum (BB)
Fuligo septica (BB)
Lycogala epidendron (BB)
Physarum polycephalum (BB)
Stemonitis splendens (BB)
