

1987 NEMF Collection, Alphabetical Listing

Paul Smith's College, Paul Smiths, New York, Aug. 20-23

Total number of species collected, 384.

Agrocybe acericola	Chalciporus piperatus	Crepidotus applanatus
Agrocybe firma	Chlorociboria aeruginascens	Cyphellopsis anomala
Aleuria aurantia	Christiansenia mycetophila	Cyptotrama asprata
Amanita brunnescens var. brunnescens	Chrysomphalina chrysophylla	Cystoderma granosum
Amanita ceciliae group*	Chrysomyxa abietis	Cystoderma sp.
Amanita citrina	Cladobotryum verticillatum	Cystolepiota seminuda
Amanita crenulata	Clavulina cinerea	Cystostereum murrayi
Amanita flavoconia	Clavulina cristata	Dacrymyces palmatus
Amanita fulva	Clavulinopsis fusiformis	Dacryopinax spathularia
Amanita gemmata group	Climacocystis borealis	Daedaleopsis confragosa
Amanita muscaria var. formosa (hist.)	Climacodon septentrionale	Daldinia concentrica
Amanita N16 (T)	Clitocybe clavipes	Drepanospora viride
Amanita N17 (T)	Clitocybe cyathiformis	Endogone pisiformis
Amanita N9 (T)	Clitocybe ectypoides	Entoloma abortivum
Amanita porphyria	Clitocybe fragrans	Entoloma dysthales
Amanita sinicoflava	Clitocybe phaeophthalmia	Entoloma griseum complex
Amanita virosa (hist.)	Clitocybe truncicola	Entoloma luteum
Amphinema byssoides	Clitocybula abundans	Entoloma murrayi
Antrodiella semisupina	Clitocybula familia	Entoloma porphyrophaeum
Apiosporina morbosa	Clitopilus hobsonii	Entoloma psammicola
Arcyria cinerea	Collybia cirrhata	Entoloma quadratum
Arcyria denudata	Collybia cookei	Entoloma strictius
Armillaria mellea	Collybia tuberosa	Fomes fomentarius
Artomyces pyxidatus	Coltricia cinnamomea	Fomitopsis cajanderi
Asterophora parasitica	Coltricia perennis	Fomitopsis pinicola
Auricularia auricula	Coniophora olivacea	Fomitopsis rosea
Austroboletus gracilis	Conocybe filaris	Fuligo septica
Baeospora myriadophylla	Coprinopsis atramentaria	Galerina paludosa
Bisporella citrina	Coprinus quadrifidus	Ganoderma applanatum
Bjerkandera adusta	Cordyceps militaris	Ganoderma tsugae
Boletellus chrysenteroides	Cortinarius armillatus	Geastrum quadrifidum
Boletus campestris	Cortinarius evernius	Geoglossum simile
Boletus edulis	Cortinarius glaucopus var. olivaceus	Gloeophyllum protractum
Boletus pseudopeckii	Cortinarius herpeticus	Gloeophyllum sepiarium
Boreostereum radiatum	Cortinarius limoneus	Gymnopilus bellulus
Botryobasidium botryosum	Cortinarius obtusus	Gymnopilus penetrans
Botryobasidium conspersum	Cortinarius paleaceus	Gymnopilus sapineus
Cantharellula umbonata	Cortinarius palustris	Gymnopilus spectabilis
Cantharellus cibarius	Cortinarius palustris var. sphagneti	Gymnopus acervatus
Cantharellus ignicolor	Cortinarius pseudosalor	Gymnopus dryophilus
Cantharellus tubaeformis	Cortinarius salor	Gyrodon merulioides
Ceratiomyxa fruticulosa var. fruticulosa	Cortinarius scaurus	Gyroporus castaneus
Cerrena unicolor	Cortinarius semisanguineus	Gyroporus cyanescens
	Cortinarius violaceus	Hapalopilus nidulans
	Craterellus fallax	Helvella crispa
		Helvella macropus

Hemitrichia serpula
Hericium coralloides
Hericium ramosum
Hericium ramosum var. *roseum*
Hydnellum caeruleum
Hydnum repandum
Hygrocybe cantharellus
Hygrocybe chlorophana
Hygrocybe conica var. *conica*
Hygrocybe laeta
Hygrocybe marginata var. *marginata*
Hygrocybe miniata
Hygrocybe punicea
Hygrophoropsis aurantiaca
Hygrophorus flavescens
Hygrophorus nitidus
Hymenochaete rubiginosa
Hymenochaete tabacina
Hyphodermopsis polonensis
Hypholoma elongatipes
Hypholoma humidicolum
Hypholoma myosotis
Hypholoma sublateritium
Hypholoma udum
Hypocrea gelatinosa
Hypomyces lactifluorum
Hypoxylon fragiforme
Hypsizygus elongatipes
Hypsizygus tessulatus
Inocybe calamistrata
Inocybe geophylla
Inocybe geophylla var. *lilacina*
Inocybe hystrix
Inocybe pallidobrunnea
Inocybe tahquamenonensis
Inonotus obliquus
Inonotus radiatus
Inonotus tomentosus
Irpex lacteus
Ischnoderma resinosum
Kretzschmaria deusta
Laccaria bicolor
Laccaria laccata var. *laccata*
Laccaria nobilis
Laccaria proxima
Laccaria pumila
Lachnellula agassizii
Lachnum caricis
Lactarius aquifluus

Lactarius camphoratus
Lactarius deceptivus
Lactarius deliciosus var. *deliciosus*
Lactarius fumosus
Lactarius griseus
Lactarius hibbardae
Lactarius hygrophoroides
Lactarius lignyotus
Lactarius oculatus
Lactarius rufus
Lactarius sordidus
Lactarius thynos
Lactarius torminosus
Lactarius uvidus
Lactarius vinaceorufescens
Leccinum atrostitipitatum
Leccinum holopus
Leccinum subglabripes
Lentinellus cochleatus
Lentinellus vulpinus
Lenzites betulina
Leotia lubrica
Leotia viscosa
Lepiota acutesquamosa (hist.)
Lepiota clypeolarioides
Lepiota cortinarius
Leptonia serrulata
Leptopodia atra
Leucogyrophana sp.
Leucopaxillus sp.
Lycogala flavofuscum
Lycoperdon pyriforme
Lyophyllum decastes
Macrolepiota procera
Marasmius androsaceus
Marasmius cohaerens
Marasmius rotula
Marasmius scorodonius
Megacollybia platyphylla
Metatrichia vesparium
Micromphale perforans
Morganella subincarnata
Mucronella calva
Mutinus caninus, cf.
Mycena haematopus
Mycena leaiana
Mycena pura
Mycena rutilantiformis
Neocudonia radicata
Nolanea conica complex

Nolanea lutea
Oligoporus caesius
Oligoporus fragilis
Oligoporus obductus
Oligoporus tephroleucus
Omphalina epichysium
Orbilina xanthostigma
Oxyporus populinus
Panellus stipticus
Paxillus atrotomentosus
Paxillus involutus
Peniophora albobadia
Peniophora cinerea
Peniophora erikssonii
Perenniporia subacida
Peziza repanda
Phaeolus schweinitzii
Phellinus chrysoloma
Phellinus ferruginosus
Phellinus igniarius
Phellinus nigricans
Phlebia radiata
Pholiota albocrenulata
Pholiota aurivella
Pholiota flammans
Pholiota malicola
Pholiota multifolia
Pholiota squarrosoides
Phyllotopsis nidulans
Physalacria inflata
Piptoporus betulinus
Pleurocybella porrigens
Pleurotus dryinus
Pleurotus levis
Plicaturopsis crispa
Pluteus admirabilis
Pluteus atromarginatus
Pluteus cervinus var. *cervinus*
Pluteus flavofuliginosus
Pluteus granularis
Pluteus longistriatus
Pluteus salicinus
Pluteus seticeps
Polyporus alveolaris
Polyporus badius
Polyporus brumalis
Polyporus varius
Postia stiptica
Psathyrella conissans
Psathyrella deliniata

Pseudohydnum gelatinosum
 Pseudomerulius aureus
 Psilocybe caerulipes
 Pulveroboletus lignicola
 Pycnoporus cinnabarinus
 Ramaria rubella var. blanda
 Ramaria stricta
 Ramariopsis kunzei
 Resinicium bicolor
 Resupinatus striatulus
 Reticularia sp.
 Rhodocollybia maculata
 Rickenella fibula
 Rozites caperatus
 Russula adusta
 Russula alutacea
 Russula aquosa
 Russula brevipes var. acrior
 Russula brunneola
 Russula claroflava
 Russula compacta
 Russula crustosa
 Russula decolorans
 Russula densifolia
 Russula emetica
 Russula fragilis
 Russula gracilis
 Russula granulata
 Russula laurocerasi
 Russula modesta
 Russula obscura
 Russula ochroleuroides
 Russula paludosa
 Russula peckii
 Russula polycystis
 Russula seperina
 Russula vesca
 Russula xerampelina
 Sarcodon imbricatum
 Sarcodon scabrosus
 Schizophyllum commune
 Scleroderma areolatum
 Scleroderma cepa
 Scleroderma citrinum
 Scutellinia scutellata
 Sepedonium brunneum
 Sepedonium chlorinum
 Sepedonium chrysospermum
 Simocybe serratula
 Spathularia velutipes

Stemonitis axifera
 Stemonitis nigrescens
 Stereum ostrea
 Stropharia hardii
 Suillus americanus
 Suillus cavipes
 Suillus granulatus
 Suillus grevillei
 Suillus intermedius
 Suillus pictus
 Suillus placidus
 Suillus punctipes
 Syzygites megalocarpus
 Taphrina amentorum
 Tapinella panuoides
 Tatraea macrospora
 Tephrocybe palustris
 Thelephora terrestris
 Trametes cervina
 Trametes hirsuta
 Trametes pubescens
 Trametes versicolor
 Trechispora vaga
 Tremellodendron pallidum
 Trichaptum abietinum
 Trichaptum biforme
 Trichaptum subchartaceum
 Trichia favoginea
 Trichia varia
 Tricholoma saponaceum
 Tricholoma sejunctum
 Tricholomopsis decora
 Tricholomopsis rutilans
 Tubaria confragosa
 Tubifera ferruginosa
 Tylopilus felleus
 Tyromyces chioneus
 Ustulina vulgaris (hist.)
 Vararia investiens
 Volvariella bombycina
 Xanthoconium affine var. affine
 Xerocomus badius
 Xerocomus illudens
 Xerocomus parasiticus
 Xerocomus spadiceus
 Xerocomus subtomentosus
 Xeromphalina campanella
 Xerula furfuracea
 Xerula rubrobrunnescens
 Xylaria hypoxylon

Xylaria polymorpha
