
2014 NEMF Collection, Alphabetical Listing

Bowdoin College, Brunswick, ME
August 7-10, 2014

Specimens Recorded: 670
Taxa Collected: 428
First Collection (checkmark): 0
New Genera: 0

Agaricus

- placomyces
- silvicola

Agrocybe

- pediades

Amanita

- abrupta
- aestivalis
- albocreata
- amerifulva nom. prov.
- amerimuscaria
- amerirubescens nom. prov.
- bisporigera
- brunnescens
- crenulata
- flavoconia
- flavorubens
- frostiana
- jacksonii
- multisquamosa
- N34 (T)
- onusta
- pantherina var. velatipes
- porphyria
- rachodes, cf.
- roseitincta
- S01 (T)
- solaniolens, cf.
- subcokeri nom. prov.
- submaculata
- virginiana

xanthomitra nom. prov.

Anteaglonium

globosum

Arcyria

cinerea

incarnata

Arrhenia

epichysium

Artomyces

pyxidatus

Asterophora

lycoperdoides

parasitica

Astraeus

morganii

Auricularia

americana

Austroboletus

gracilis

Bertia

moriformis

Bisporella

citrina

Bjerkandera

adusta

Boletellus

chrysenteroides

projectellus

russellii

Boletinellus

merulioides

Boletus

badius

bicolor

edulis

flammans

glabellus

griseus var. fuscus

huronensis

inedulius

longicurvipes

miniato-olivaceus

ornatipes

pallidus

rubellus

sensibilis

speciosus var. brunneus

subglabripes

subluridellus

subvelutipes

vermiculosoides

vermiculosus

Bryoria

furcellata

Buchwaldoboletus

lignicola

Bulgaria

inquinans

Callistosporium

luteo-olivaceum

Calocera

cornea

Cantharellus

cibarius

ignicolor

minor

Ceratiomyxa

fruticulosa var. fruticulosa

fruticulosa var. poroides

Ceriporia

- spissa

Cerrena

- unicolor

Chlorencoelia

- torta
- versiformis

Chlorociboria

- aeruginascens

Cladonia

- chlorophaea
- coniocraea
- floerkeana
- furcata
- gracilis
- macilenta
- rangiferina
- squamosus
- strepsilis
- submitis
- uncialis

Clavaria

- fumosa
- purpurea
- zollingeri

Clavulina

- cinerea
- cristata
- rugosa
- zollingeri

Clavulinopsis

- aurantiocinnabarina
- fusiformis
- laeticolor

Climacodon

- septentrionalis

Clitocybe

- gibba
- irina
- odora

Clitocybula

- abundans
- oculata

Clitopilus

- prunulus

Coccomyces

- sp.

Collybia

- cookei
- tuberosa

Coltricia

- cinnamomea
- montagnei
- perennis

Conocybe

- apala

Coprinellus

- micaceus

Cortinarius

- alboviolaceus
- bolaris
- camphoratus
- corrugatus
- distans
- evernius
- iodes
- limoneus
- rubicundulus
- semisanguineus
- squamulosus
- torvus

Craterellus

- cornucopioides
- tubaeformis

Crepidotus

- applanatus

Crucibulum

- laeve

Cyathus

- stercoreus

Cyptotrampa

- asprata

Dacrymyces

- chrysospermus
- palmatus

Daedalea

- quercina

Daedaleopsis

- confragosa

Daldinia

- concentrica

Diatrype

- stigma

Dictyophora

- duplicata

Eccilia

- unicolor

Elaphocordyceps

- capitata
- ophioglossoides

Entoloma

- bicolor
- depluens
- strictius
- strictius var. isabellinus

Entomophthora

- sp.

Evernia

- mesomorpha

Flavoparmelia

- caperata

Fomes

- fomentarius

Fomitopsis

- pinicola
- rosea
- spraguei

Fuscoporia

- ferrea

Ganoderma

- applanatum
- curtisii
- tsugae

Geoglossum

- glabrum
- simile

Gloeophyllum

- sepiarium

Gloeoporus

- dichrous

Gomphus

- floccosus

Graphis

- scripta

Guepiniopsis

- buccina

Gymnopilus

- luteus
- penetrans

Gymnopus

- confluens
- dichrous
- dryophilus
- luxurians
- subnudus

Gymnosporangium

- sp.

Gyroporus

- castaneus

Helminthosphaeria

- clavariae

Helvella

- crispa
- macropus

Hemistropharia

- albocrenulata

Hemitrichia

- serpula

Hormomyces

- aurantiacus

Humidicutis

- marginata

Hydnellum

- aurantiacum
- chrysinum
- concrescens
- geogenium
- peckii
- scrobiculatum
- spongiosipes
- suaveolens

Hydnochaete

- olivacea

Hydnum

- repandum
- umbilicatum

Hydropisphaera

- peziza

Hygrocybe

- angustifolia
- cantharellus
- chlorophana
- conica var. conica
- irrigata
- laeta
- miniata
- psittacina
- virginea
- vitellina

Hygrophoropsis

- aurantiaca

Hygrophorus

- marginatus var. concolor
- nitidus
- reae

Hymenopellis

- furfuracea

Hypocrea

- gelatinosa

Hypogymnia

- krogiae
- physodes

Hypomyces

- armeniacus
- hyalinus
- lactifluorum
- lateritius
- leoticola

Hypoxylon

- fragiforme

Hypsizygus

- tessulatus

Imshaugia

- aleurites

Inocephalus

- luteus
- murrayi
- quadratus

Inocybe

- calamistrata
- lanuginosa
- tahquamenonensis

Inonotus

- obliquus
- tomentosus

Kretzschmaria

- deusta

Laccaria

- amethystina
- bicolor
- ochropurpurea
- striatula

Lactarius

- aquifluus
- camphoratus
- chrysorrheus
- cinereus
- cinereus var. fagetorum
- deceptivus
- fumosus
- gerardii
- glaucescens
- griseus
- helvus
- hygrophoroides
- imperceptus
- lignyotellus
- lignyotus
- mucidus
- mutabilis
- quietus
- subserifluus
- subvellereus var. subdistans
- thyinos
- tomentosum-marginatus
- volemus

Laetiporus

- cincinnatus
- sulphureus

Lasallia

- papulosa

Leccinum

- albellum
- scabrum
- subgranulosum

Lentinellus

- ursinus

Lentinus

- lepideus
- suavissimus

Lenzites

- betulina
- elegans

Leocarpus

- fragilis

Leotia

- lubrica
- viscosa

Lobaria

- pulmonaria

Lophodermium

- pinastri

Lycoperdon

- marginatum
- perlatum
- pyriforme
- subincarnatum

Macrolepiota

- procera

Marasmiellus

- opacus

Marasmius

- capillaris
- oreades
- rotula
- siccus
- sullivantii

Megacollybia

- rodmanii

Microglossum

- fumosum
- rufum

Mollisia

- sp.

Multiclavula

- mucida

Mutinus

- elegans

Mycena

- capillaripes
- galericulata
- haematopus
- leaiana
- rorida

Nolanea

- conica

Orbilina

- delicatula

Otidea

- onotica

Oxyporus

- populinus

Panaeolus

- papilionaceus

Panellus

- stipticus

Parasola

- plicatilis

Parmelia

- squarrosa
- sulcata

Paxillus

- involutus

Peltigera

- canina

Peziza

- badia
- succosa

Phaeocalicium

- polyporaenum

Phaeolus

- schweinitzii

Phaeophyscia

- rubropulchra

Phellinus

- hartigii
- viticola

Phellodon

- confluens
- niger

Pholiota

- squarrosoides

Phylloporus

- leucomycelinus
- rhodoxanthus

Piptoporus

- betulinus

Platismatia

- glauca
- tuckermanii

Pleurotus

- ostreatus
- pulmonarius

Plicaturopsis

- crispa

Pluteus

- cervinus var. cervinus
- podospileus

Podostroma

- alutaceum

Polyporus

- alveolaris
- leptocephalus
- radicans

Porphyrellus

- porphyrosporus

Porpoloma

- umbrosum

Postia

- stiptica

Propolis

- versicolor

Psathyrella

- piluliformis

Pseudevernia

- cladonia
- consocians

Pseudohydnum

- gelatinosum

Pulveroboletus

- ravenelii

Punctelia

- rudecta

Pycnoporellus

- fulgens

Pycnoporus

- cinnabarinus

Pyrenocollema

- halodytes

Radulodon

- copelandii

Ramalina

- intermedia

Ramaria

- formosa
- rubella

Ramariopsis

- kunzei

Retiboletus

- griseus

Rhytisma

- punctatum

Rickenella

- fibula

Russula

- albonigra
- amoenolens
- anomala
- ballouii
- claroflava
- compacta
- cyanoxantha
- incarnaticeps
- laurocerasi
- mariae
- modesta
- ochroleucoides
- paludosa
- parvovirescens
- peckii
- rubescens
- rugulosa
- sericeonitens
- variata
- virescens
- xerampelina

Sarcodon

- cristatus
- joeides
- underwoodii

Scleroderma

- areolatum
- cepa
- citrinum

Scutellinia

- scutellata

Skeletocutis

- nivea

Spathularia

- velutipes

Stereum

- complicatum
- ostrea

Strobilomyces

- confusus
- strobilaceus

Suillus

- americanus
- granulatus
- pictus
- placidus
- salmonicolor
- subalutaceus
- subaureus

Sutorius

- eximius

Syzygites

- megalocarpus

Syzygospora

- mycetophila

Taphrina

- robinsoniana

Tapinella

- atrotomentosa

Tatraea

- macrospora

Trametes

- pubescens
- versicolor

Tremella

- foliacea

Tremellodendron

- pallidum

Trichaptum

- biforme

Trichoderma

- sp.

Trichoglossum

- farlowii
- sp.

Tricholomopsis

- decora
- flammula
- rutilans

Tubifera

- ferruginosa

Tylopilus

- badiceps
- chromapes
- felleus
- ferrugineus
- sordidus
- violatinctus

Tyromyces

- chioneus

Umbiliaria

- muehlenbergii

Umbilicaria

- mammulata

Usnea

- hirta
- subfloridana

Verrucaria

- maura

Xanthoconium

- affine

Xanthoria

- elegans

Xerocomus

- chrysenteron
- subtomentosus

Xeromphalina

- campanella

Xylaria

- polymorpha
